The Editors-in-Chief are issuing an editorial expression of concern to alert readers that panel C in Fig. 3 appears to be very similar to panel H in Fig. 2 in a previouslypublished article by the same author group [1], but the images are labelled differently. Due to the age of the articles, it is not possible to compare the panels to raw data. The readers are asked to interpret the image with caution.

The original article can be found online at https://doi.org/10.1186/ar2002.
